

Exercise 6

Dataset for Testing

Each exercise proposed has to be tested on at least one dataset among the ones:

- <https://github.com/ZiyaoWu/SeqDT/tree/master/data>

You can also take into consideration:

- <https://archive.ics.uci.edu/dataset/34/diabetes>

The students may propose a dataset but should previously agreed with the lecturer, in case of affirmative response the link will appear on this document.
